EXPERTISE

JavaScript, Canvas, HTML5, Redux, React, React Native, SQL, Node, Git, CSS3, HTML, Ruby, Rails

PORTFOLIO

Boba Buddies | *(React/Redux, Rails 5, PostgreSQL)*   live | github

An app inspired by Tea With Strangers that connects strangers together.
- Combined ActiveRecord and PostgreSQL to track users attending or hosting events through a join table
- Devised a single dashboard component to render either hosting or current events for DRY code
- Utilized AJAX requests to immediately update view page of React components and jQuery to retrieve the necessary data to render in JSON through jbuilders

Lynk | *(React, React-Native)*   live | github

A mobile app for Apple iOS platform that compares Lyft and Uber transportation costs.
- Uses React-Native-Maps to render markers for pickup location and destination on map
- Retrieves coordinates for current location with Geolocation and addresses/place names with Geocoder
- Renders ride costs by using Lyft API and Uber API to fetch information after submit and parsing data
- Redirects to selected app with data pre-populated using Lyft and Uber APIs

Buzzin' Bee | *(JavaScript)*   live | github

A side-scrolling action game inspired by Jetpack Joyride.
- Incorporated HTML5 and Canvas to create animations and 2D side-scrolling background
- Implemented Object Oriented Programming and classical inheritance for more optimized code

EXPERIENCE

Office Manager

Rehab and Revive Physical Therapy   Apr. 2014 - Jan. 2017
- Trained and managed 6-8 interns; checked their learning progress at every 90 hours out of 150 required hours of observation
- Wrote over 10 procedural manuals and phone handling scripts for better, structural organization within the company; led to increase in sales leads and patient retention
- Lowered rate of no shows by implementing a 24-hour cancellation policy and initial evaluation deposit fee

Physical Therapy Intern

Rehab and Revive Physical Therapy   Aug. 2013 - Apr. 2014
- Gathered 400+ observation hours of one-on-one patient-physician sessions
- Prevented patient self-injury by learning exercises thoroughly and instructing patients on how to perform them correctly

EDUCATION

App Academy - Jan. 2017 - Apr. 2017

Full-stack web development course; acceptance rate < 5%

University of California, Riverside- Sept. 2009 - July 2013

Bachelor of Sciences in Biology
